Description
Who is Hiring?
This is your moment to work with a premier Customer Solutions and Salesforce Platinum Partner company and learn from some of the best Salesforce stars in the industry. Their cutting-edge strategies and digital transformation expertise have helped many businesses around the globe become bigger and better than ever.

My client is currently hiring for a Salesforce Developer with a go-getter attitude who can support various project delivery development tasks. This can be a truly rewarding career with swift growth prospects for anyone who can prove his/her mettle in the domain. Those who have a robust experience in Apex will have a definite edge over the competition.

What you'll be doing
• Support all in-development tasks
• Execute end-to-end tasks of the project lifecycle and deliver custom-made solutions
• Collaborate with the service management team to work on assigned service cases
• Help design customised solutions to meet their client needs
• Implement essential functionality after understanding the specifications and solution designs
• Calculate risks and flagging issues affecting the project

What you'll bring to the role
• Robust experience in Apex preferred
• Experience in Visualforce/Lightning development skills
• Demonstrable experience in Java or .Net
• Demonstrable experience with integrations; 3rd party integration
• experience is a bonus
• Experience with data migration tools
• Knowledge of best practices using Salesforce Platform
• Experience in Service Cloud and Sales Cloud
• Team Player with a go-getter attitude

Benefits
• Attractive remuneration up to £60K depending on experience
• An excellent opportunity for undergoing professional skills development
• Opportunity to work with some of the best technical minds in the industry
