Description
Who is Hiring?
Ever wondered what it's like to be working with a leading marketing analytics company. They are looking for a talented Salesforce AdminDev to join their Salesforce team. My client has disrupted market using complex customer to offer powerful digital content. Some of the biggest brands trust them when it comes to analytics services. This is a hands-on role where your abilities with the Salesforce is required.

Key Responsibilities
• Create declarative customization, Apex, Visualforce, Lightning Components, data modeling
• Handle managed packages, create and refine complex data models
• Take care of external integration and mentor junior team members in Salesforce technology
• Collaborate with Engagement Manager(s) and Operations Manager for project management
• Contribute in project team, translate document, and delegate tasks associated with project
• Develop clear and comprehensive user stories and solution design documentation
• Delegate, guide, and follow up with other team members in a timely manner
• Offer advisory support for design and development of custom solutions on Salesforce
• Design and implement business technology solutions focused on cloud-based business applications

Requirements
• More than 4+ years' experience working in a Salesforce Admin
• Previous experience of providing technical-support or implementation role
• Ability to build custom apps and objects, formula fields, workflows
• Knowledge of how to build custom views, and other content of intermediate complexity
• Strong data management abilities
• Proficiency in Excel will be highly appreciated
• Deep experience of Sales and Service Cloud, Communities.
• Should have B.S. degree in Computer Science, Business
• Should have Certified Salesforce.com Admin, Sales Cloud and Service Cloud
• Ability to design and implement new processes and facilitate user adoption
