Description
Who Is Hiring?
Ever wondered what it's like to be working with a leading niche telecom player in the United Kingdom? Our client has been serving its global customers, including leading business corporations, as well as government and non-government organisations, with top-notch voice and data services for over 40 years.

They are right now seeking services of a seasoned Salesforce Developer who can lend support to their BU super-users, Salesforce Application Lead, as well as other stakeholders that are part of its international marketing and sales system. If you love working in dynamic work culture and explore new horizons every day, we can't wait to speak with you!

What you'll be doing
• Creating tailor-made solutions on the Salesforce platform to assist crucial business functions
• Taking an expository approach in the first place wherever possible
• Offering technical expertise and leadership based on best practices to integrate third-party systems
• Using Process Automation tools, particularly Apex Triggers/Classes, and Process Flow and Builder
• Offering system administration-specific support for the Salesforce environments
• Offering QA for new system characteristics

What you'll bring to the role
• You should be a Salesforce Certified Developer
• You must hold a Diploma or Degree in Information Technology or a similar field
• Intense experience as a Salesforce Developer
• Experience writing Test/Apex Classes and Triggers as well as creating Visual Force pages
• Familiarity with the Lightning UI and Sales Cloud
• Experience developing Lightning components
• Should know about offering Tier-II support to end-users for business applications
• Interact and work with business users and other members of global teams
• Experience with marketing automation platforms such as Pardot preferred
• Have knowledge of collaborating CPQ Tools with the Salesforce
• Familiarity with source code control tools, such as GitHub, Git and so on
• Experience with Continuous Delivery/Integration tools and processes preferred
• Preferred experience working in an Agile environment

Benefits
• A welcoming and inclusive work culture
• Attractive annual package of £60K – £70K

- Flexible working hours to ensure optimum work-life balance
- Higher Education support
- Employee assistance programme and other benefits
- Volunteering opportunities
- Staff discounts at leading outlets and more
